INSTALLATION:

☒ **YES**, I understand a Madison Energy Group representative will install my units to ensure they are installed correctly and qualify for the Lifetime Warranty on the units. Cost of Installation: Average cost is \$350 per location for most locations and typical installations. We will review your location prior to shipment of your equipment and processing your final charges. If your location varies from our average cost, we will advise you of any change in installation costs (higher or lower) before your order is processed.

PAYMENT METHOD:

☐ **Lease:** The Madison Energy Group offers a 6 - 24 month lease payment plan option. Payment amounts are outlined below. To qualify, you need to have been in business for at least 2 years (no credit checks are required) and your first payment needs to be made before installation. Full terms and conditions are provided in Madison Energy's Lease Contract which you will sign directly with them. *Lease payment amounts are:*

For sales under \$10,000 (6 month)

EnerG2 - \$110/month
